MILITARY MOVEMENTS AT THE NORTH -Major General Sandford, of New York, has tendered to the Governor the service of the entire first division of New York State militia, to be ready at a moment's notice. The division comprises four brigades, and includes the infantry, cavalry and artil-ery amounting to 4.871 men. This, of course, only embraces the uniformed companies; but several large companies of volunteers have expressed their readiness to serve upon any occasion. These companies are composed of men of all parties, but all are determined that the Union must and shall be preserved.

The Troy (N. Y.) Daily Times states that a regiment of volunteers is being raised in that city for the purpose of aiding the General Government in putting down rebellion and in the enforcement of the laws. The first men in the city are engaged in it, and the volunteers are young men of charac-

ter and respectability
The Philadelphia Ledger also says that a movement is on foot for the same purpose in that city. Representatives of many of these military companles held a meeting last Saturday night, in which steps were taken to consolidate their strength, and it is expected that the first regiment will be able to muster 800 men at short notice.

A man in Terra Haute, Indiana, was fined \$4.50 in the police court. The great trouble was to collect the fine. At last he promised to give up a barrel of flour worth \$5, in consideration of a half dollar in change, and a clear receipt against the judgment. The offer was accepted, and the berrel of flour purchased by one of the sheriffs at its supposed value. The purchaser discovered, however, when too late, that the barrel of flour was a barrel of dirt, with a thin coating of flour. Mrs. McGuire, of New York, should bless the police. They broke into her spartment the other night and discovered her struggling with her husband, who had her by the hair of the head and with a large carving knife was endeavoring to murder her for some fault in the preparation of his evening meal.

John B. Gough, the sensation "temperance lecturer," states that he is not a rich man, as many His taxes, all told, only amount to \$52 He also states that when he commenced lecturing an agreement was made between himself and wife that one-tenth of all his earnings should be given for charitable purposes.

The Postmaster at Charleston writes that, under "intense excitement," there was a distinction made in two instances, between the private and the official letters received to the address of Major Anderson"-but that now all sealed mail matter is now sent to him, without any surveillance of the South Carolina authorities.

in The number of artificial water works for supplying cities and villages in the United States is eighty-two; in the British Provinces, seven. The entire cost of them all is estimated at \$71,172,471. Water stock, as a public debt, is held to be very secure, and there are no water shares found in the

MISCELLANEOUS.

The Amalgamation of Languages,—There is a growing tendency in this age to appropriate the most appressive words of other languages, and after a while to incorparate them into our own; thus the word Cephalic, which is from the Greek, signifying "for the head," is now becoming popularized in convection with Mr. Spalding's great Headache remedy; but it will soon be used in a more general way, and the word Cephalic will become as common as Electrotype and many others whose distinction as foreign words has been worn away by common usage until they seem "native and to the manor born."

'ardly Realized.

Hi 'ad 'n 'orrible 'eadache this afternoon, hand I stepped into the hapotheoaries hand says hi to the man, "Can you hease me of an 'eadache!" "Does it hache 'ard," says 'e. "Hexoeedingly," says hi, and upon that 'e gave me a Cephalio Pill. hand 'pon me 'onor it oured me so quick that I 'ardly realized I 'ad 'ad an 'eadache.

IT Headache is the favorite sign by which nature makes known any deviation whatever from the natural state of the brain, and viewed in this light it may be looked on as a safeguard intended to give notice of disease which might otherwise escape attention, till too late to be remedied; and its indications should never be nerlected. Headaches may be classified under two names, viz: Symptomatic and Idiopathic. Symptomatic Headache is exceedingly common and is the precursor of a great variety of diseases, among which are Apoplexy. Gout. Rheumatism and all febrile diseases. In its rervous form it is sympathetic diseases of the stomach constituting sick headache, of worms, constipation and other disorders of the towels, as well as renal and uterine affections. Diseases of the heart are very frequently attended with Headaches; Anæmia and plethors are also affections which frequently occasion headache. Idiopathic Headache is also very common, being usually distinguished by the name of nervous headache, sometimes coming on suddenly in a state of apparently sound health and prostrating at once the mental and physical energies, and in other instances it comes on slowly, heralded by depression of spirits or acerbity of temper. In most instances the pain is in front of the head, over one or both eyes, and sometimes provoking vomiting, under this class may also be named Neuralgia.

For the treatment of either class of Headache the Cephalic Pills have been found a sure and safe remedy, relieving the most acute pains in a few minutes, and by its subtle power eradicating the disease of which headache is the unerring index.

BRIDGET.—Missus wents you to send her a box of Cephalic Glue, no, a bottle of Prepared Pills,—but I'm thinking that's not just it naither; but perhaps ye'll be afther knowing what it is. Ye see she's nigh dead and gone with the Sick Headache and wants some more of that same as relaived her before Druggest .- You must mean Spaiding's Cephalic Bridget.—Och! sure now and you've sed it, here's the quarther and giv me the Pills and don't be all day about it aither.

No one of the "many ills flesh is heir to" is so prevalent, so little understood, and so much neglected as Costiveness. Often originating in carelesaness, or sedentary habits; it is regarded as a slight disorder of too little consequence to excite anxiety, while in reality it is the precursor and companion of many of the most fatal and dangerous diseases, and unless early eradicated it will bring the sufferer to an untimely grave. Among the lighter evils of which Costiveness is the usual attendant are Headache, Colic, Rheumatism, Foul Breath Piles, and others of like nature, while a long train of frightful diseases such as Malignant Fevers, Abcesses, Dysentery, Dyspepsia, Diarrhea, Apoplexy, Epilepsy, Paralysis, Hysteria, Hypochondriasis, Melancholy and Insanity, first indicate their presence in the system by this alarming symptom. Not unfrequently the diseases named originate in Constipation, but take on an independent exist ence unless the cause is eradicated in an early stage. From all these considerations it follows that the disorder should receive immediate attention whenever it occurs, and no person should neglect to get a box of Cephalic Pills on the first appearance of the complaint, as their timely use will expel the insideous approaches of disease and destroy this Constipation or Costiveness. the complaint, as their timely use will expel the insiduous approaches of disease and destroy this dangerous fee to human life.

A Real Blessing.

Physician.-Well, Mrs. Jones, how is that head Mrs. Jones.—Gone! Doctor, all gone! the pill you sent cured me in just twenty minutes, and I wish you would send more so that I can have them Physician.—You can get them at any Druggists, Call for Cephalic Pills, I find they never fail, and I recommend them in all cases of Headache. Mrs. Jones.—I shall send for a box directly, and shall tell all my suffering friends, for they are a real blassing.

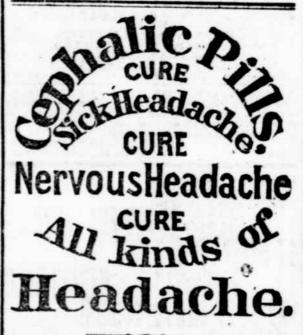

Twenty Millions of Dollars Saven.—Mr. Spalding has sold two millions of bottles of his celebrated Prepared Glue and it is estimated that each bottle saves at least ten dollars worth of broken furniture, thus making an aggregate of twenty millions of dollars reclaimed from total loss by this valuable invention. Having made his Glue a household word, he now proposes to do the world still greater service by curing all the aching heads with his Cephalic Pills, and if they are as good as his Glue, Headaches will soon vanish away like snow in July.

OVER EXCITEMENT, and the mental care and anxiety incident to close attention to bus ness or study, are among the numerous causes of Nervous Headache. The disordered state of mind and body Headache. The disordered state of mind and body incident to this distressing complaint is a fatal blow to all energy and ambition. Sufferers by this disorder can always obtain speedy relief from these distressing attacks by using one of the Cephalic Phils whenever the symptoms appear. It quiets the overtasked brain and soothes the strained and jarring nerves, and relaxes the tension of the stomach which always accompanies and aggravates the disordered condition of the brain.

FACTS WORTH ENOWING.—Spalding's Cephalic Pills are a certain cure for Sick Headache, Billous Headache, Nervous Headache, Costiveness, and General Doblity.

GREAT DISCOVERY.—Among the most important of all the great medical discoveries of this age may be considered the system of vaccination for protection from Small Pox, the Cephalic Pill for relief of Headache, and the use of Quinine for the prevention of Fevers, either of which is a sure specific, whose benefits will be experienced by suffering humanity long after their discoverers are forgotten.

DID you ever have the Sick Headache? Do you remember the throbbing temples, the fevered row, the loathing and disgust at the sight of food. How totally unfit you were for pleasure, conversation or study. One of the Cephalic Pills would have relieved you from all the suffering which you then experienced. For this and other purposes you should always have a box of them on hand to use as occasion requires. use as occasion requires.

By the use of these Pills the periodic attacks of if taken at the commencement of an attack immediate relief from pain and sickness will be obtained. They seldom fail in removing the Nausca and Headache to which females are so subject. They act gently upon the bowels,-removing Cos-

tiveness. For Literary Men, Students, Delicate Females and all persons of sedentary habits, they are all valuable as a Lazative, improving the appetite. giving tone and vigor to the digestive organs, and restoring the natural elasticity and strength of the whole system.

he CEPHALIC PI LS are the result of long investigation and carefully conducted experiments, having been in use many years, during which time they have prevented and relieved a vast amount of pain and suffering from Headache, whether origi nating in the nervous system or from a deranged

state of the stomach. They are entirely vegetable in their composition. and may be taken at all times with perfect safety without making any change of diet, and the ab sence of any disagreeable tasts renders it easy to administer them to children.

DR. J. BOVEE DOD'S IMPERIAL WINE BITTERS,
Are now being used from Mame to the Great Salt
Lake, and the universal verdict of all who use
them either as a medicine or as a become, is that
they are unsurpased in the world. Dr. Dods used
them successfeir in his practice for 25 years before
we purchased of him the sole right to manufacture
and present tham for sale to the sublic. For the
cure of Incipient Companytion, indirection, Dyspepsia, Pilea, Mervous Biscases, Female Complainte, and all cases requiring a tonic, they are beyond doubt a most invalenble remedy. Aside from
their medicinal properties they are a pure, wholesome and delightful Beverage, producing all the
pleasant exhibitrating checuts of Brandy or Wine
without their injurious results. Let all friends of
numanity and all advocates of temperance assist
us in substituing these valuable Vegetable Bitters
for the science; priceus and admirested Liquers
with which the country is flooded, and thereby offectually aid in bameling Disease and Brunkeness
from the land.
